

THE TEAM CONNECTION

THE TEAM SOLUTION

01

In early 1984, 9 engineers with 108 years of international experience decided to synergise their expertise in Acoustics, Architecture / Civil, Electrical, Electronics, Communications, Mechanical, Air-Conditioning and Electro-Acoustics focused in the Performing Arts, Music and Broadcast industry.

Taking into account, the years, multi-faceted engineering expertise and common belief in teamwork; inspired the proposal “ that we should form the company - Team108 Technical Services ”.

30 years later, with only 3 originals still in force, the “ technical services ” scope of engineering capabilities has become even more diverse by the support of Team Resources - an international grouping of specialist consultants acclaimed for their pioneering cutting edge technologies.
